CBD body lotion

Broad Spectrum CBD

The future of healthy skincare today!

The Cosmetic industry is starting to take notice of CBD's anti-inflammatory, antioxidant and regenerative properties.

CBD can help the skin look more radiant and younger by slowing down the visible signs of aging. It can make your skin feel smoother, softer and fuller.

Our BHealth CBD Body Lotion gives you an unforgettable skin soothing feeling with the added benefits of restoring balance and healing.

Cannabinoid receptors (CB1 and CB2) are expressed throughout human skin. The powerful anti-inflammatory and anti-oxidative benefits of CBD helps to explain the amazing results people are seeing.

Studies are now starting to catch up to the amazing skincare results people have been experiencing when using our CBD skincare (acne ⁽¹⁾, psoriasis ⁽²⁾)

Advantages

Amazing synergistic ingredients

Its ingredients like Raw Hemp, Premium CBD Oil Damiana, Neem, Menthol Crystals, Grape Seed Oil, Camphor Essential Oil, Copaiba Balsam Essential Oil have numerous useful properties. It gives you unforgettable skin soothing feeling with the added benefits of restoring balance, recovery and helps calm sunburns too.

Endocannabinoid System (ECS)

The human **Endocannabinoid System (ECS)** - named for the plant that led to its discovery - is one of the most important physiologic systems involved in establishing and maintaining human health. Endocannabinoids and their receptors (CB1 and CB2) exert a potent **anti-inflammatory and antioxidant effect** ⁽³⁾ and are found throughout our entire body: in the brain, organs (skin), connective tissues, glands, and immune cells. are found **throughout our entire body:** in the brain, organs (skin), connective tissues, glands, and immune cells.

They control some of our **most vital life functions**, including our **immune system, memory, appetite, sleep patterns, mood and pain sensation.** ⁽⁴⁾
